

Tech Tour 2017 European Venture Contest Final – Award Winners

Company	Stage	Location	Presenter	Track
Aito	Expansion/Growth	Netherlands	Peter Kurstjens	Cleantech
Aurelia Turbines	Early stage	Finland	Matti Malkamaki	Cleantech
Black Bear	Expansion/Growth	Netherlands	Martijn Lopes Cardozo	Cleantech
Heliac	Expansion/Growth	Denmark	Jakob Jensen	Cleantech
OneWatt	Early stage	Netherlands	Paolo Samontanez	Cleantech
Wmoove	Expansion/Growth	Germany	Juergen Resch	Cleantech
Accelleran	Early stage	Belgium	Frederic Van Durme	Digital
Lightpoint Medical	Early stage	United Kingdom	Claire Woodthorpe	Digital
Replex	Early stage	Germany	Patrick Gruhn	Digital
Strive Media	Early stage	Denmark	Alexander Schaefer	Digital
Voiceable	Early stage	Norway	Rick Salmon	Digital
c-Lecta	Expansion/Growth	Germany	Marc Struhalla	Healthtech
Comphyra	Early stage	Germany	Rodrigo Fraga-Silva	Healthtech
Fineheart	Early stage	France	Stephane Garrigue	Healthtech
Galgo Medical	Early stage	Spain	Antoni Riu	Healthtech
Noscendo	Early stage	Germany	Philip Stevens	Healthtech
Ontoforce	Early stage	Belgium	Hans Constandt	Healthtech
Oncolize	Expansion/Growth	Netherlands	Mike de Leeuw	Healthtech
Q app	Expansion/Growth	Netherlands	Bart Stevens	Healthtech
Syndivia	Early stage	France	Sasha Koniev	Healthtech

2017 Award Winners Overview

Cleantech Winners

 <p>aito® Touch. Click. Feel.</p>	<p>Aito: Enabler and leader of next generation tactile user interface technology.</p> <p>Stage: Expansion/Growth Location: Netherlands Presenter: Peter Kurstjens</p>
	<p>Aurelia Turbines: As manufacturers of the most efficient small gas turbines in the world, Aurelia Turbines have successfully commercialised technology developed in Lappeenranta University of Technology, Finland.</p> <p>Stage: Early stage Location: Finland Presenter: Matti Malkamaki</p>
	<p>Black Bear: Black Bear has developed technology to upcycle waste tires into high quality carbon black, gas and oil.</p> <p>Stage: Expansion/Growth Location: Netherlands Presenter: Martijn Lopes Cardozo</p>
	<p>Heliac: Its solar-powered utility-scale solution generates high-temperature heat at costs lower than any fossil alternative. With this extremely scalable solution, the company addresses the world's insatiable energy needs.</p> <p>Stage: Expansion/Growth Location: Denmark Presenter: Jakob Jensen</p>

	<p>OneWatt: The company helps industrial users prevent unplanned down times, identify motor faults earlier, and increase the productivity of their maintenance staff.</p> <p>Stage: Early stage Location: Netherlands Presenter: Paolo Samontanez</p>
	<p>Wmoove: This is the next generation of recycling – mobile waste sorting solutions. Wmoove builds mobile, grid independent self powering charging plants.</p> <p>Stage: Expansion/Growth Location: Germany Presenter: Juergen Resch</p>

Digital Winners

	<p>Accelleran: The company provides Carrier Grade Software Solutions that powers the Mobile Radio Access Networks (RAN) addressing the ever-increasing data volumes through densification of 4G LTE networks and enabling 5G applications of tomorrow's radio networks.</p> <p>Stage: Early stage Location: Belgium Presenter: Frederic Van Durme</p>
	<p>Lightpoint Medical: This is an innovative, clinical-stage medical device company founded in 2012. The company has developed a groundbreaking surgical imaging technology based on Cerenkov Luminescence Imaging (CLI). CLI has the potential to detect cancer in real-time during surgery, and thereby reduce the need for repeat operations.</p> <p>Stage: Early stage Location: United Kingdom Presenter: Claire Woodthorpe</p>

	<p>Replex: All IT Infrastructure information in one central location made digestible and actionable by providing optimisation strategies for devops and C-levels alike.</p> <p>Stage: Early stage Location: Germany Presenter: Patrick Gruhn</p>
	<p>Strive Media: It is a company in the OTT broadcasting industry by creating software that helps broadcasters to make their delivery infrastructure (CDN) grow dynamically with their audience.</p> <p>Stage: Early stage Location: Denmark Presenter: Alexander Schaefer</p>
	<p>Voiceable: The company presents an innovative voice analysis technology. In order to help the customers, become better public speakers, Voiceable first records the voice, then performs a scientific spectrogram analysis to identify some of its strengths and weaknesses.</p> <p>Stage: Early stage Location: Norway Presenter: Rick Salmon</p>

Healthtech Winners

	<p>c-Lecta: c-LEcta is a world-leading, technology-driven biotechnology company focusing on the transformation of bright scientific ideas into valuable industrial products. The company covers the value chain from early stage development down to commercial scale production and product approval.</p> <p>Stage: Expansion/Growth Location: Germany Presenter: Marc Struhalla</p>
---	--

	<p>Comphyra: One of the world's leading industrial biotechnology companies located in Leipzig, Germany. Comphyra develops and implements innovative new production technologies with a focus on applications in the pharma, feed and food industries.</p> <p>Stage: Early stage Location: Germany Presenter: Rodrigo Fraga-Silva</p>
	<p>Fineheart: Founded by a team of four internationally renowned cardiac surgeons and cardiologists, the company has a vision of making a miniaturized, fully implantable, pulsatile circulatory support system that would overcome many challenges.</p> <p>Stage: Early stage Location: France Presenter: Stephane Garrigue</p>
	<p>Galgo Medical: The company creates predictive value for medical practitioners to design personalised treatment strategies for patients based on imaging software by applying it to arrhythmia care to stratify ICD implantation and its eventual ablation, osteoporosis predicting risk of fracture & endovascular treatment with stents planning their deployment.</p> <p>Stage: Early stage Location: Spain Presenter: Antoni Riu</p>

	<p>Noscendo: Sepsis is a disease with high case numbers, high mortality and extremely high healthcare cost. Blood culture as the gold standard for sepsis diagnosis has severe disadvantages. To overcome these, one has to recognize and diagnose most reliably the infecting agent to successfully treat the infected patient.</p> <p>Stage: Early stage Location: Germany Presenter: Philip Stevens</p>
	<p>Ontoforce: Help finding the right data for children with learning disorders and disabilities, in 2013 this technology got access to Healthcare and Life Sciences bringing data from patients and research together.</p> <p>Stage: Early stage Location: Belgium Presenter: Hans Constandt</p>
	<p>Oncolize: Using Micro Moments (e.g. unlock moment of your smartphone, checking smartwatch, using Alexa) the company is able to ask numerous relevant questions to patients in different statuses of their recovery process.</p> <p>Stage: Expansion/Growth Location: Netherlands Presenter: Mike de Leeuw</p>
	<p>Q app: Based on established hydrogel technology by InGell Labs, we develop a pipeline of injectable drug depots, releasing generic chemo compounds into solid tumours over weeks to months.</p> <p>Stage: Expansion/Growth Location: Netherlands Presenter: Bart Stevens</p>

SYNDIVIA
BIOFUNCTIONAL
CHEMISTRY

Syndivia: The company develops a pipeline of innovative cancer therapies through both in-house and partnered programs.
