Deep Tech Summit 2018 – 23 Growth Companies

Organisation	Country	Sector	Short Description
Aiqudo	Northern Ireland	Artificial Intelligence	Aiqudo's voice AI platform provides a complete solution to enable a voice experience for mobile apps www.aiqudo.com
Antenna Company	Netherlands	Software & Systems	The Antenna Company is an antenna systems provider that delivers high-performance 2D and 3D solutions based on advanced materials, proprietary design principles and RF system expertise www.antennacompany.com
AppyParking	United Kingdom	Autonomous Vehicles & IoT	We're the world's first connected car and kerbside management platform that bridges the gap between big data, Traffic Management Order mapping, IoT and agnostic payments www.appyparking.com
Artisense	Germany	Autonomous Vehicles & IoT	Enabling 3D vision second to none in AI powered computer vision www.artisense.ai
Bestmile	Switzerland	Autonomous Vehicles & IoT	Bestmile provides a highly scalable cloud technology for the intelligent operation of tomorrow's transport systems www.bestmile.com
Codice Software	Spain	Software & Systems	Distributed Version Control System tools to make software development teams more productive www.plasticscm.com/company
CoreNetiX	Germany	Autonomous Vehicles & IoT	CoreNetiX offers wireless communication technologies and solutions for low-power smart sensor networks www.corenetix.com
Datumize	Spain	Big Data, Cloud and Machine Learning	Enjoy compelling, new and actionable insights from your hidden data and gain competitive advantage by filling your knowledge gap regarding customer behaviour, real demand, and operations efficiency www.datumize.com
Doordeck	United Kingdom	Artificial Intelligence	Doordeck swaps keycards and access passes for the one card you're already carrying: your smartphone. www.doordeck.com
First Light Fusion	Germany	Energy Production	First Light Fusion Ltd is a lean, focused and agile corporation researching energy generation by inertial confinement fusion www.firstlightfusion.com
Geoblink	Spain	Big Data, Cloud and Machine Learning	The Location Intelligence solution that helps companies of any size take strategic, location-related decisions on an easy-to-use platform www.geoblink.com
Kompyte	Spain	Big Data, Cloud and Machine Learning	Kompyte is a competitor tracking software that sends real-time alerts when your competitors make changes to their websites, products, and digital marketing campaigns www.kompyte.com

Metron	France	Artificial Intelligence	Energy Intelligence for Industry 4.0 www.metronlab.com
Modcam	Sweden	Big Data, Cloud and Machine Learning	Modcam deliver intelligent insights to large corporates based on a full stack Computer Vision solution using a Neural Network algorithm for image analytics www.modcam.com
Nanofoot Finland	Finland	Autonomous Vehicles & IoT	One of the leading suppliers of high power laser diode testing and quality control solutions www.nanofoot.fi
Optalysys	United Kingdom	Software & Systems	Optical processing technology to revolutionise Artificial Intelligence by solving the fundamental limitations of conventional electronic computing www.optalysys.com
Pointr	United Kingdom	Big Data, Cloud and Machine Learning	The Leading AI/AR Platform For "Smart Indoors" www.pointrlabs.com
Prophesee	France	Software & Systems	Prophesee is a Paris-based company, inventor of the world's most advanced neuromorphic vision systems www.prophesee.ai
Riddle&Code	Austria	Software & Systems	The blockchain interface company. We are providing the infrastructure for the crypto and machine economy www.riddleandcode.com
RobArt	Austria	Software & Systems	RobArt makes next generation (very) intelligent navigation systems for household robots www.robart.cc
Sentiance	Belgium	Software & Systems	Sentiance is a data science company that turns IOT sensor data into rich insights about people's behaviour and real-time context www.sentiance.com
Silexica	Germany	Autonomous Vehicles & IoT	Silexica provides programming solutions that help software engineers to develop intelligent electronic products - such as autonomous cars or 5G base - stations - as it optimizes software to run efficiently on embedded supercomputers www.silexica.com
Wise Athena	Spain	Artificial Intelligence	Wise Athena gets the right prices every promotional cycle using artificial intelligence www.wiseathena.com

Deep Tech Summit 2018 – 10 Elevator Pitch Companies

Organisation	Country	Sector	Short Description
Cogito Instruments	Switzerland	Artificial Intelligence	Cogito Instruments S.A. brings edge cognition to industry 4.0 applications www.cogitoinstruments.com
CyberOwl	United Kingdom	Cybersecurity	Cyber risk prioritisation platform for connected industrial systems www.cyberowl.io
gridscale	Germany	Big Data & Cloud	gridscale is a cloud technology manufacturer and the only European provider of infrastructure and platform services. The company is dedicated to cutting-edge technology, bringing cloud computing to the next level www.gridscale.io
HEMAV Technology	Spain	Artificial Intelligence	Market leader in AI-driven predictive analysis of crop yield and quality www.hemav.com
InsurTechnix	United Kingdom	Cybersecurity	InsurTechnix develops cyber-security risk management software that enables insurers to price cyber insurance policy premiums more accurately www.insurtechnix.com
Minima Processor	Finland	Internet of Things	Minima's unique hardware technology enables significant energy efficiency improvements in digital integrated circuits www.minimaprocessor.com
Mojin Robotics	Germany	Artificial Intelligence	Mojin develops and manufactures Automation Solutions for Service Industries www.mojin.io
NodeWeaver	Italy	Big Data & Cloud	Reliability as a service - from Edge cloud to core data centre. A self-managing, self-assembling platform that supports IoT, Edge, ROBO and core applications at any scale www.nodeweaver.eu
UPMEM	France	Big Data & Cloud	Big data applications acceleration in data centres, with disruptive Processing-In-Memory semiconductor technology and smart solutions www.upmem.com
V-count	Turkey	Big Data & Cloud	Visitor Analytics for the Physical World www.v-count.com
